- Support For Common Transcription Hardware
- File Attachment Support
- Work At Home Or Office In A Secure Environment

Work Flow Management

- Manage System From Any Windows PC
- Role Based Management
- True Multiple Facility
- Built-in Reporting
- Web Based

The screenshot displays the WinScribe web interface. At the top, the WinScribe logo and version information (3.6 RC1) are visible. A navigation menu includes Home, Users, Jobs, Maintenance, Reports, Alarms, Settings, and Logout. A red alert message states "Alarms have been detected. Please check alarms." The user is identified as "User: 1111 | Group: Manager | Facility: WinScribe". The main heading is "Browse Jobs by Job Status". A search box contains "Active Jobs" and a "Printer-friendly format" link is present. Below is a table with columns for Id, Job Status, Total Jobs, and Total Job Length. The table lists 12 job statuses, with "Completed" having 5 jobs and "Backlog Jobs" having 4 jobs. At the bottom, there are buttons for "List Jobs for Selected Job Status" and "Cancel".

<input type="checkbox"/>	<u>Id</u>	<u>Job Status</u>	<u>Total Jobs</u>	<u>Total Job Length</u>
